## **Declaration: US California Proposition 65**

Ensuring that no component under manufacturing by Metalwo A/S contain any chemicals that are know to cause diseases such as cancer, birth defect or other reproductive harm.

The above standing declaration is based on all available information from our current suppliers and is deemed valid until further notice. For further details regarding the proposition, we kindly refer to the webpage of the California Office of Environmental Health Hazard Assessment (OEHHA):  
<https://oehha.ca.gov/proposition-65/proposition-65-list>.

Customers may request a detailed list of any individual product supplied by Metalwo A/S however, please note that retrieving such information requires extensive manual as well as analytical work from our employees which are not a part of the mandatory nor expected obligation following the proposition.

For this reason, Metalwo A/S charges a service fee of DKK 820,00 / EUR 110.00 per investigated part number. If the customer wishes to proceed with the investigation, please provide our Chief of Quality and Development, Mr. Claus Grøn-Nielsen, with a list of the specific part numbers and forward this to [CG@metalwo.dk](mailto:CG@metalwo.dk) along with an authorized purchasing order issued to cover the fee.

We appreciate your understanding on this matter and looking forward to continuing our great collaboration in the future. If you have any questions regarding the current policy statement, please contact [metalwo@metalwo.dk](mailto:metalwo@metalwo.dk).

## **Kind Regards**

Metalwo A/S
