Declaration: Conflict Minerals

With this document, we hereby confirm that all products supplied and manufactured by Metalwo do not contain conflicting minerals that originate from the Democratic Republic of Congo and its adjoining countries. The minerals being referred to include columbite-tantalite (coltan, niobium and tantalum), cassiterite (tin), gold and wolframite, their derivatives, and other metals that may be designated at a later date.

The above standing declaration is based on all available information from our current suppliers following the CFSI_CMRT version 6.31 and is deemed valid until further notice.

Customers may request a detailed list of any individual product supplied by Metalwo A/S however, please note that retrieving such information requires extensive manual as well as analytical work from our employees which are not a part of the mandatory nor expected obligation following the legislation.

For this reason, Metalwo A/S charges a service fee of DKK 820,00 / EUR 110.00 per investigated part number. If the customer wishes to proceed with the investigation, please provide our Chief of Quality and Development, Mr. Claus Grøn-Nielsen, with a list of the specific part numbers and forward this to CG@metalwo.dk along with an authorized purchasing order issued to cover the fee.

We appreciate your understanding on this matter and looking forward to continuing our great collaboration in the future. If you have any questions regarding the current policy statement, please contact metalwo@metalwo.dk.

Kind Regards

Metalwo A/S
